

# Tata Hitachi's Dharwad plant rolls out its 50,000<sup>th</sup> machine

Tata Hitachi's Dharwad plant rolled out its 50,000<sup>th</sup> machine on 12<sup>th</sup> July 2016. The EX200LC Super Hydraulic Excavator was handed over to Mr. R N Nayak and Mr. Dinesh R Nayak of M/s DRN Infrastructure, Hubli. M/s DRN Infrastructure has a formidable reputation of being pioneers in irrigation and road works in Karnataka and Maharashtra. Deploying over 100+ Tata Hitachi machines in their projects, DRN Infrastructure has a longstanding relationship with Tata Hitachi.

Speaking on the occasion, Mrs. Deepa Dinesh Nayak, Managing Partner of M/s DRN Infrastructure said: "We are loyal and satisfied Tata Hitachi customers. Our relationship with the company spans almost three decades. We are delighted with their product quality and after sales support. We are proud of the fact that we received the 10,000<sup>th</sup> machine from Dharwad plant in 2006. And again today, we feel happy to be the recipient of the 50,000<sup>th</sup> machine from the same plant. We are happy to announce that we shall look forward to receive 1,00,000<sup>th</sup> machine from Tata Hitachi."

Handing over the keys, Mr K Kimura – Alt. Director & Sr. Advisor, Tata Hitachi, said “This is a very proud moment for our company and specially the Dharwad plant. We are privileged to hand over the 50,000<sup>th</sup> machine from this plant to DRN Infrastructure. They are a very valued and special customer for us. At Tata Hitachi, our endeavor is to build long lasting relationships with customers by providing Reliable Solutions to address their end to end needs.”

In tune with the company's philosophy of giving back to society, the sale proceeds from this machine will be deployed towards community development initiatives across all Tata Hitachi plant locations.

Spread over an expanse of 118 acres, Tata Hitachi's manufacturing facility in Dharwad started operations in 1998. Catering to the Mini & Midi Excavator and Backhoe Loader segments, 60% of Tata Hitachi's production is rolled out from the Dharwad Plant. The plant has a unique plant-in-Plant (PIP) concept with vendors. Currently the plant has PIP for fabrication, Gears, Hoses and pipes manufacturing. Tata Hitachi Dharwad is certified to ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 standards which reflects its commitment to Quality, Environment and Safety.
